Commissioner for Patents

The timely submission under 37 CFR 1.129(a) filed on August 3, 2005 is not fully responsive to the prior Office action because applicant has not elected a single group as presented in the election restriction requirement. Specifically, applicant as stated that they elect an implant of Figure 1, which is not specifically claimed, which is made by the method of claim 13. It is pointed out that group I (claims 1 – 12) is drawn to an implant, however it is unclear if this is the group applicant has elected since specific mention is made of claim 13. Furthermore, the method of claim 13 is not a method for making an implant, but is a method for implanting a prosthetic device. Thus, applicant has not clearly elected a group/invention to prosecute on the merits. Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a).
